[Teacher manual](#)

[Short training videos](#)

THE COMPLETE JOURNEY

One result cycle, seven simple stages

Registration

Academic setup

Teacher work

Review

Approval

Report card

Print

Every training session follows this same order so the process is easy to remember.

ACCESS SEPARATION

Two roles, one shared workflow

Area	Teacher	Administrator
Normal academic work	Allowed	Allowed
Settings	Not available	Allowed
Report-card printing	Not available	Allowed

Teachers are restricted only from Settings and report-card printing.

Admin: prepare the system

1

Register staff

Create or confirm staff accounts and keep access personal to each user.

2

Set the academic context

Confirm session, term, classes, subjects, grading and report-card settings.

3

Confirm students

Check class lists, names, photos and active student records.

4

Assign work

Make sure teachers know the classes and subjects they are handling.

TEACHER SECTION

Teacher: complete academic work

- Sign in with your own account.
- Open the assigned class and confirm the students.
- Enter continuous assessment and examination scores.
- Complete permitted traits and remarks.
- Review entries, save and report completion.

Check every score**Report missing students****Ask admin about locked errors**

ADMINISTRATOR SECTION

Admin: review and approve

- Check that all expected students and subjects are complete.
- Review scores, totals, grades, traits and remarks.
- Resolve missing or incorrect entries.
- Approve or publish the completed result.

Only after review should the result move to report-card production.

Admin: create the report card

1

Select

Choose the class, term, session and student—or the full class list.

2

Refresh

Load the latest approved data into the report-card view.

3

Check

Confirm the student details, scores, grades, remarks and layout.

4

Print

Print one card or all cards. This function is administrator-only.

Report-card workflow

07

TRAINING PLAN

Three layers of orientation

1. Manuals

Short admin and teacher references for daily use.

2. Slides and videos

One visual lesson per major task, about 3–7 minutes each.

3. Checklists

Simple prompts used during live training and the first result cycle.

Recommended order

Registration → setup → teacher entry → review → approval → report card.

COMPLETION CHECK

Before the result cycle closes

- All students are in the correct classes.
- All assigned entries are complete.
- Errors have been resolved.
- Results have been reviewed and approved.
- Report cards have been checked and printed by an administrator.

When these five checks are complete, the school is ready for handover of the final output.
